# QSIDE Data Analysis

Naamna Modi, Ritik Jain, Gabriella Stickney, Ritin Kalidindi

- **QSIDE, Quantitative Study of Inclusion, Diversity, and Equity** is an established non-profit organization

- QSIDE aims to use data science to establish better insights into education equity, diversity in media, criminal justice, environmental justice, health equity, and human trafficking to name a few

- Our team is working on creating a data map that provides insights into a multitude of attributes correlating to varying rates of school presence: These attributes include student-teacher ratio, chronic illness, poverty, etc.

% of Residents 3yrs+ enrolled in school in 2021
